

Warren,

Attached please find an Excel Spreadsheet I developed during my research about the 119th IR. It lists all of the KIA's I could glean out of the Workhorse of The Western Front and the 119th Battle History. After getting a list of those name of soldiers from the 119th who were killed, I entered those names in the American Battle Monument Commission's Internet Page. On many of the names I was able to get the date they were killed, their rank at the time, the state they entered the service from, and the cemetery they are buried in. This info was only available to those soldiers buried in the American Military Cemeteries. As you will see when you read the spreadsheet, many have no info at all. I assume those are the soldiers that were brought home for burial after the war. In this case, the only reference I had for that name was the Workhorse Book, and it only listed names.

The cemetery abbreviations are:

NO - Normandy
EP - Epinal
HC - Henri-Chapelle
NE - Netherlands
CA - Cambridge
LUX - Luxemburg
ST - St. Lo
BR - Brittany
AR - Ardennes
LO - Lorraine

This spreadsheet tells quite a lot about the activities of the regiment. In it's original form it is sorted by last name of the soldiers. It can be sorted by Date Killed, this is very interesting. You can easily see the dates when the heaviest fighting occurred. It can be sorted by Cemetery, or rank or state. It is as correct as I can get, but as you know, human error and other things can make this info not always perfect. For instance, both of my uncles last name was mis-spelled in the Workhorse Book. I suspect many other were also mis-spelled. While not perfect, I think it might give others doing research a starting place
